Call Absolique Hair Health Clinic on 07 3229 3242 to secure your SPECIAL OFFER

When experiencing Hair Loss, Hair Thinning and Scalp Conditions, a trip to the hairdresser can be a terrifying ordeal. The thought of even a hair wash can trigger hair anxiety let alone the thought of harmful ingredients, the rough hair wash and massage, how many times the comb passes through the hair, not to mention sitting in an open room with wet hair when things look at their worst! The shame of scalp conditions is also very upsetting and does not need to be. In a safe and private environment where this is only what we do and are here to help in every way we can.

The better you feel about how your hair looks while addressing the real symptoms and causes is powerful to progress beyond the problems. Our new hairdressing services will offer you the best hair advice, so you can confidently and comfortably manage your hair at home to look and feel good every day. It can also be tricky to manage your hair as you recover from hair loss and hair thinning because of the different hair textures once we have the hair regrowing again. We get the new good hair growth at the roots but are still left with the thinning ends, a plan can be provided to gradually balance this out without the need for drastic and super short haircuts.

To form a hair plan unique to you, we have included 15 Minute Hair Design Consultation so you are 100% confident with the service you will receive when you come in for your hair appointment. If you are currently undertaking any of Absolique Hair Loss Treatment or Scalp Treatment, we can also incorporate your treatment into your hair service. Please call our reception team on 07 3229 3242 to ask any questions and to purchase your special offer
