

PharmaHermetic

Company introduction:

Pharma Hermetic Limited is one of the pioneers in hair biotechnology products in Barcelona, Spain. It's a specialty pharmaceutical company producing hair care products and cosmetic ingredients.

The word Hermetic come from the cause-and-effect principle described in the Kybalion book (Hermetic Philosophy), we believe that there is a cause and an effect for all the biological processes in our body including hair loss, so we deeply investigated the causes of hair loss in men and women to find a painless, topical solution, without side effects and with long-lasting results.

Pharma Hermetic was born after an extensive experience of more than 20 years in the cosmetic and pharmaceutical world, Pharma Hermetic founders decided to combine their knowledge and the acquired know-how to establish a company that would focus its activity specifically on the hair care.

Company objectives:

Pharma Hermetic philosophy is based on pharmaceutical concepts, which we apply to research and develop outstanding cosmetics products. Taking advantage of the group synergies, we also innovate and create new formulas for cosmetic and biotechnological products.

Our products are manufactured under strict GMP standards, with EU approval.

Pharma Hermetic strongly believes the beauty secret relies on the prevention as a mandatory action for both women and men around the world, recognize their deeper aspirations and express to the maximum their unique personalities.

HAIR RECOVERY PROGRAM SP55

MEDIA / NEWS

In the press

The Pharma Hermetic Hair Recovery Program range has been featured in Platinum magazine (February 2020).

Recommended by Dr. Dawn Harper from channel 4's Embarrassing Bodies as a new treatment for thinning hair in both males and female.

She recommends the treatment along side derma rolling to enhance the growth of hair in the follicle. "It is certainly a lot less invasive and less expensive than a hair transplant and is growing in popularity".

Back to the roots

Inside Pharma Hermetic's
Hair Recovery Program SP55

Aesthetic Medicine Magazine UK December 2020

Pharma Hermetic is one of the pioneers in hair biotechnology products from Barcelona, Spain. It's a specialty pharmaceutical company producing hair care products.

With extensive experience of more than 20 years in the cosmetic and pharmaceutical industry, Pharma Hermetic founders decided to combine their knowledge and the acquired know-how to establish a company that would focus its activity on the hair care.

Its key treatment is the Hair Recovery Program SP55, a cosmetic topical solution designed for people suffering hair loss that works by supporting the stem cells in the hair follicle.

The ingredients in HRP SP55 inhibit the formation of the 5 α -Reductase, the enzyme that converts testosterone into the much more potent androgen, DHT. If 5 α -AR levels increase, more testosterone will be converted into DHT, and greater hair loss will occur.

Therefore HRP SP55 blocks the formation of DHT; high levels of androgens, including DHT, can shrink the hair follicles as well as shorten this cycle, causing hair to grow out looking thinner and more brittle, as well as fall out faster. DHT can also make it take longer for

follicles to grow new hairs once old hairs fall out.

Some people are more susceptible to these effects of DHT on scalp hair based on variations in their androgen receptor (AR) gene.

Androgen receptors are proteins that allow hormones like testosterone and DHT to bind to them. This binding activity typically results in normal hormonal processes like body hair growth, but variations in the AR gene can increase androgen receptivity in the scalp follicles, making it more likely to experience male pattern hair loss.

In addition, HRP SP55 increase the telomerase activity in the stem cells of the hair, which is directly linked to their proliferation.

HRP SP55 revitalises the hair bulb to obtain a greater thickness and strength, helping strengthen the anchorage of the root and hair and rebalance the scalp. With no side effects on the patient, this is a non-invasive application.

HRP SP55 helps to:

- Reduce scalp inflammation
- Boost better quality hair growth
- Stimulate hair production
- Thicken the existing hair

PHARMA
HERMETIC

Pharma Hermetic

Hair bio-technology manufacturer Pharma Hermetic has launched Hair Recovery Program SP55, a cosmetic topical solution designed for people suffering from hair loss that works by supporting the stem cells in the hair follicle. The ingredients aim to inhibit the formation of the enzyme that converts testosterone into the much more potent androgen DHT, which can shrink hair follicles as well as shorten their lifecycle, causing hair to grow out looking thinner and more brittle, as well as fall out faster. The system blocks the formation of DHT; leading to reduced scalp inflammation, better quality hair growth and thicker hair.

From receding hair lines to balding, hair loss is a common problem suffered by men and women throughout the UK. But there are remedies out there to put a stop to it and restore confidence in your locks.

Surgery Group is one of these solutions.

This group of hair transplant surgeons are based throughout the UK, meaning you're never far from the help you need. In addition to providing quality hair transplant procedures for men and women, they also have a comprehensive range of treatments to help treat hair loss, including **The Hair Recovery Program from Pharma Hermetic**. This product has been designed to help establish a healthy growth cycle, especially for female patients.

Surgery Group offers upfront pricing and direct consultations with the surgeons who'll perform your procedure. To ensure high standards, they only handle a limited number of patients every month so the team is never overloaded, so you can rest assured you're always in the safest pair of hands.

Welcome to the natural way to help reduce hair loss

When it comes to hair and hair loss - Pharma Hermetic's Hair Restoration Program is here to help.

The Spanish brand only launched five years ago but is now recognised worldwide - and has now landed in the UK. The Pharma Hermetic philosophy is all about comfortable and efficient treatment.

Pharma Hermetic believes that peptides and natural ingredients are the way forward to help fight back against hair loss for all genders, skin and hair types.

The products' ingredients are 100% sterile, natural and organic with no harmful chemicals or allergens.

The ingredients used in the products are backed by scientific research* and the team designed the treatments with the goal of reducing hair loss from any form. Pharma Hermetic offers non-invasive techniques through their advanced system, having in mind the wellbeing of the patients.

Introducing the Hair Growth and Restoration Spray - made to help stimulate the cells to keep the scalp and hair follicles healthy. Get two-months' worth for £135.98.

The Pharma Hermetic Anti Hair Loss Shampoo has been made to encourage hair growth, improve regeneration of hair follicles, increase hair density and reduce hair breakages. It has also been designed to help block Dihydrotestosterone (DHT), which is a hormone linked to hair loss and other health issues. Get two-months' worth for £38.98.

Nourishing Hair Mask is specially formulated for dry and damaged hair due to external and internal factors. This mask has been created to help improve hydration, nutrition and resistance to hair breakage. Get two-months' for £34.99.

Hair Recovery Program SP55 is a professional solution for everyone suffering from hair loss. The professional system is available from clinics and specialists as a treatment.

HAIR RECOVERY PROGRAM SP55 Brand Ambassadors

**Evrin Bayraktar - Member of the
European Society Of Hair
Research.**

16.04.2019

To Adrian Quiroga,

It is a privilege for us to write this reference letter for Pharma Hermetic Hair Recovery Program. We are pleased to inform that we have been using this treatment for 6 months in our Trichology Clinic, in Istanbul, Turkey.

We both combine Hair Recovery Program with our own trichological treatments in the clinic and recommend it as a Home Treatment on its own. So far we have used 15 kits of the treatment with both male and female patients who suffer from Androgenetic Alopecia especially. We have been receiving very positive feedbacks and satisfactory results. We observe that the treatment is promoting hair growth, improving hair density and producing thicker hair.

We have great pleasure to recommend Pharma Hermetic Hair Recovery Programme to all the health professionals, to experts in hair care field, to patients and finally to anybody who wants to improve their hair quality and prevent hair loss and prevent Androgenetic Hair Loss from progressing. This very special formula deserves to be appreciated by many other companies operating in hair care business.

Sincerely,

Evrin Bayraktar, MIT

HAIR RECOVERY PROGRAM SP55

Brand Ambassadors

Dr. Manish Mittal MB ChB, an aesthetic surgeon who specifically focuses on hair restoration. He is a hands-on surgeon who takes a personal interest in every patient. Having completed his medical training at the University of Leicester in 2015; Dr. Mani has developed his skills in a range of aesthetic treatments including injectables and dermal fillers. This passion for assisting patients with their cosmetic aspirations ultimately led to his progression into hair transplantation while continuing to train in general surgery and the latest fat loss solutions

HAIR RECOVERY PROGRAM SP55 Brand Ambassadors

Jane Davies - a passionate professional with more than two decades experience in the hair industry, including owning a multi award-winning hair salon in the UK for 7 years before moving to Perth in March 2014.

Jane began her passion for hair and scalp health more than a decade ago, where she trained in hair science in a world-famous clinic in London, before completing her certification in trichology with the International Association of Trichologists.

HAIR RECOVERY PROGRAM SP55

PharmaHermetic

Objectives

- ▶ What HRP (hair Recovery program SP55 consists of)
- ▶ Mechanism of action
- ▶ Protocols and recommendations
- ▶ Patient Results
- ▶ Aims of HRP SP55

HAIR RECOVERY PROGRAM SP 55

- ▶ The Hair Recovery Program SP55 is a topical solution designed for people suffering hair loss that work from the outside, to support the stem cells in the follicle.
- ▶ Prevention of hair loss must consider both increase life length of hair stem cells and balance scalp nutrition.
- ▶ HRP SP 55 reduce the inflammation of the hair follicle and provide a better supply of key ingredients for a healthy hair growth.

HAIR RECOVERY PROGRAM SP 55

- ▶ The mechanism of action of HRP SP 55 key ingredients is to block the DHT + increase the activity of the Telomerase in the stem cells of the hair.

Minoxidil, and 5a *reductase* *inhibitors*

The drawbacks of medical choices:

Every hair loss patient is not the right candidate

Life time dedication

Re-bouncing effects after stopping the treatment

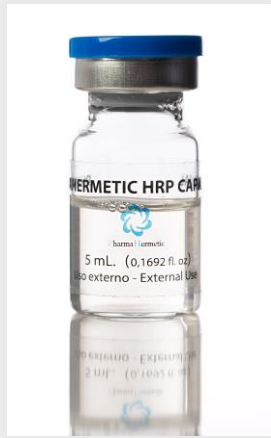

Side effects not always welcomed

Injectable methods are painful

Cosmetic Treatment for Hair growth

- ▶ Ampoules (2ml) and Vials (5ml)
- ▶ Suitable for clinic and home use
- ▶ Topical application
- ▶ Massaged into hair
- ▶ Once a week treatment

Hermetic shampoo (200ml)

- Support the treatment
- Improve hair quality
- Strengthen hair condition

Hermetic Lotion (50 ml)

- Daily use
- Complements vials and Ampoules

Recommended treatment with Vials

- ▶ 50 days treatment - one vial every 10 days - applied with dermo roller.
- ▶ Post treatment of a vial per month is recommended.
- ▶ Dry-hair application

Application protocol for Pro Phials

- Massage the area to improve vasodilation.
- Use the dermo roller 0.5 MM.
- Apply a full phial in the targeted area with a gently massage during 5 min.
- Use the dermo roller 0.5 MM again.
- Do not dry the hair with a hair dryer. Allow the product to absorb into the scalp.
- Do not wash the hair after the session - wait 8 hours to wash the hair.
- Avoid direct contact of sunlight after the application - for 8 hours.
- Avoid eye contact, if occurs, rinse with water.

Recommended treatment for HRP Ampoules (At home treatment)

- ▶ 30 days treatment - one ampoule every 3 days - applied with a gently massage.
- ▶ Post treatment of an ampoule every 15 days is recommended.
- ▶ Dry-hair application.

Application Protocol HRP Ampoules

- Massage the area to improve vasodilation.
- Apply a full ampoule in the targeted area.
- Do not dry the hair with a hair dryer. Allow the product to absorb into the scalp.
- Avoid direct contact of sunlight after the application - at least 8 hours.
- Avoid eye contact, if occurs, rinse with water.

Application Protocol HRP Lotion

- Massage the area to improve vasodilation.
- Apply enough product to cover the targeted area.
- Massage the area again for full absorption.
- Do not dry the hair with a hair dryer. Allow the product to absorb into the scalp.
- Avoid direct contact of sunlight after the application - at least 8 hours.
- Avoid eye contact, if occurs, rinse with water.

Shampoo

Hermetic shampoo without sulfates or parabens that synergistically combines several multi-effect active ingredients. Those ingredients help protein synthesis by stimulating hair growth, enhance the regenerative capacity of the follicle, anchor the hair bulbs by increasing hair density, strengthen the hair follicle to prevent hair breakage and inhibit 5-a-reductase by reducing excess of sebum that weakens the hair.

In addition, it is formulated with menthol that provides freshness and extremely mild surfactants that clean in depth, respecting the scalp and capillary structure, prolonging the life of the hair and strengthening it from the roots, achieving healthier and stronger hair.

- Apply to hair, previously wet. Massage and leave it to act for 5 minutes. Finally rinse with plenty of warm water.

HAIR MASK

Mask specially formulated for dry and damaged hair due to exposure to external environmental, thermal and chemical factors. Contains hyaluronic acid, mango butter, shea, and grapeseed oil. This mask helps improve hydration, nutrition and resistance to hair breakage. It also provides an extraordinary conditioning effect, flexibility and shine to the hair.

INSTRUCTIONS FOR USE: Apply the mask on damp hair and scalp in sufficient quantity. Massage and comb the hair with your fingers several times. Leave on for 5 to 15 minutes and rinse with plenty of cold water.

SILVER KIT

► The Professional Hair Recovery Kit is a 7 weeks intensive treatment with the 3 key products from PHARMA HERMETIC to grow your hair.

► Including:

A) 5 vials (5ml each) - to be applied with a dermo roller 0.5mm. One vial every 10 days.

B) 10 ampoules (2ml each) - to be applied with a gently massage, one ampoule every 3 days.

C) 1 lotion (50 ml) - to be applied daily with a gently massage.

The professional hair recovery kit also include a device to safely open the ampoules, and applicator for both ampoules and vials.

Inside the box you will find the protocol of application, recommendations and the Schedule for the application with a calendar.

HAIR RECOVERY PROGRAM SP55

Increase the
TELOMORASE
activity

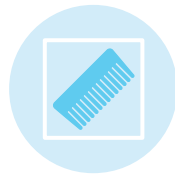

Enhance the
growth of new
hair

Activate dormant
follicles

Repair the
weakened and
brittle hair

Thicken and
strengthen the
existing hair

Block DHT
formation

Peptides are involved in many physiological processes. Their acceptance as natural molecules, relatively high stability and well-defined actions have made them attractive for many skin and hair related indications, most notably in anti-aging and anti-hair loss therapy.

The biological activity of HRP key ingredients have been analysed in depth. HRP SP55 ingredients prevents telomerase inhibition mediated by different chemotherapeutic agents and decreases oxidative stress protecting cells from DNA damage and delaying the induction of cellular senescence.

These findings support the certainty that the treatment with HRP SP55 ingredients could prolong the lifespan of cells in hair and skin.

ALOPECIA

- ▶ 90 % of hair loss in men is caused by genetic pre-disposition
- ▶ The role of testosterone and 5 alpha recuctase is well defined
- ▶ Dihydrotestosterone (DHT), is synthesized from testosterone by the enzyme 5alpha-reductase.
- ▶ It has been indentified the main cause of male pattern baldness

BUT THERE IS ALSO AN INFLAMMATORY COMPONENT

Inflammation
to be treated
for effective
results in AGA

INFLAMMATION

- ▶ Restricts follicle growth
- ▶ Decrease oxygen and nutrient supply to AGA-prone tissues
- ▶ Leads to tissue degradation
- ▶ Speeds up hair follicle miniaturization
- ▶ Eventually AGA speeds up

At scalp level , hair follicle cell cycle can be interrupted with inflammatory cytokines, oxidative stress, telomere shortening and cellular senescence

HRP SP 55 aims for

- ▶ Controlling and decreasing inflammation
- ▶ Activating anti- oxidant activity
- ▶ Removing free radicals
- ▶ Relaxing blood vessels for more oxygen and nutrients
- ▶ Shorten the delayed growth of hair follicles

Our experience:

HRP SP55 topical solution helped our patients to

Reduce scalp inflammation

Boost better quality hair growth

Stimulate hair production

Thicken the existing hair

No side effect

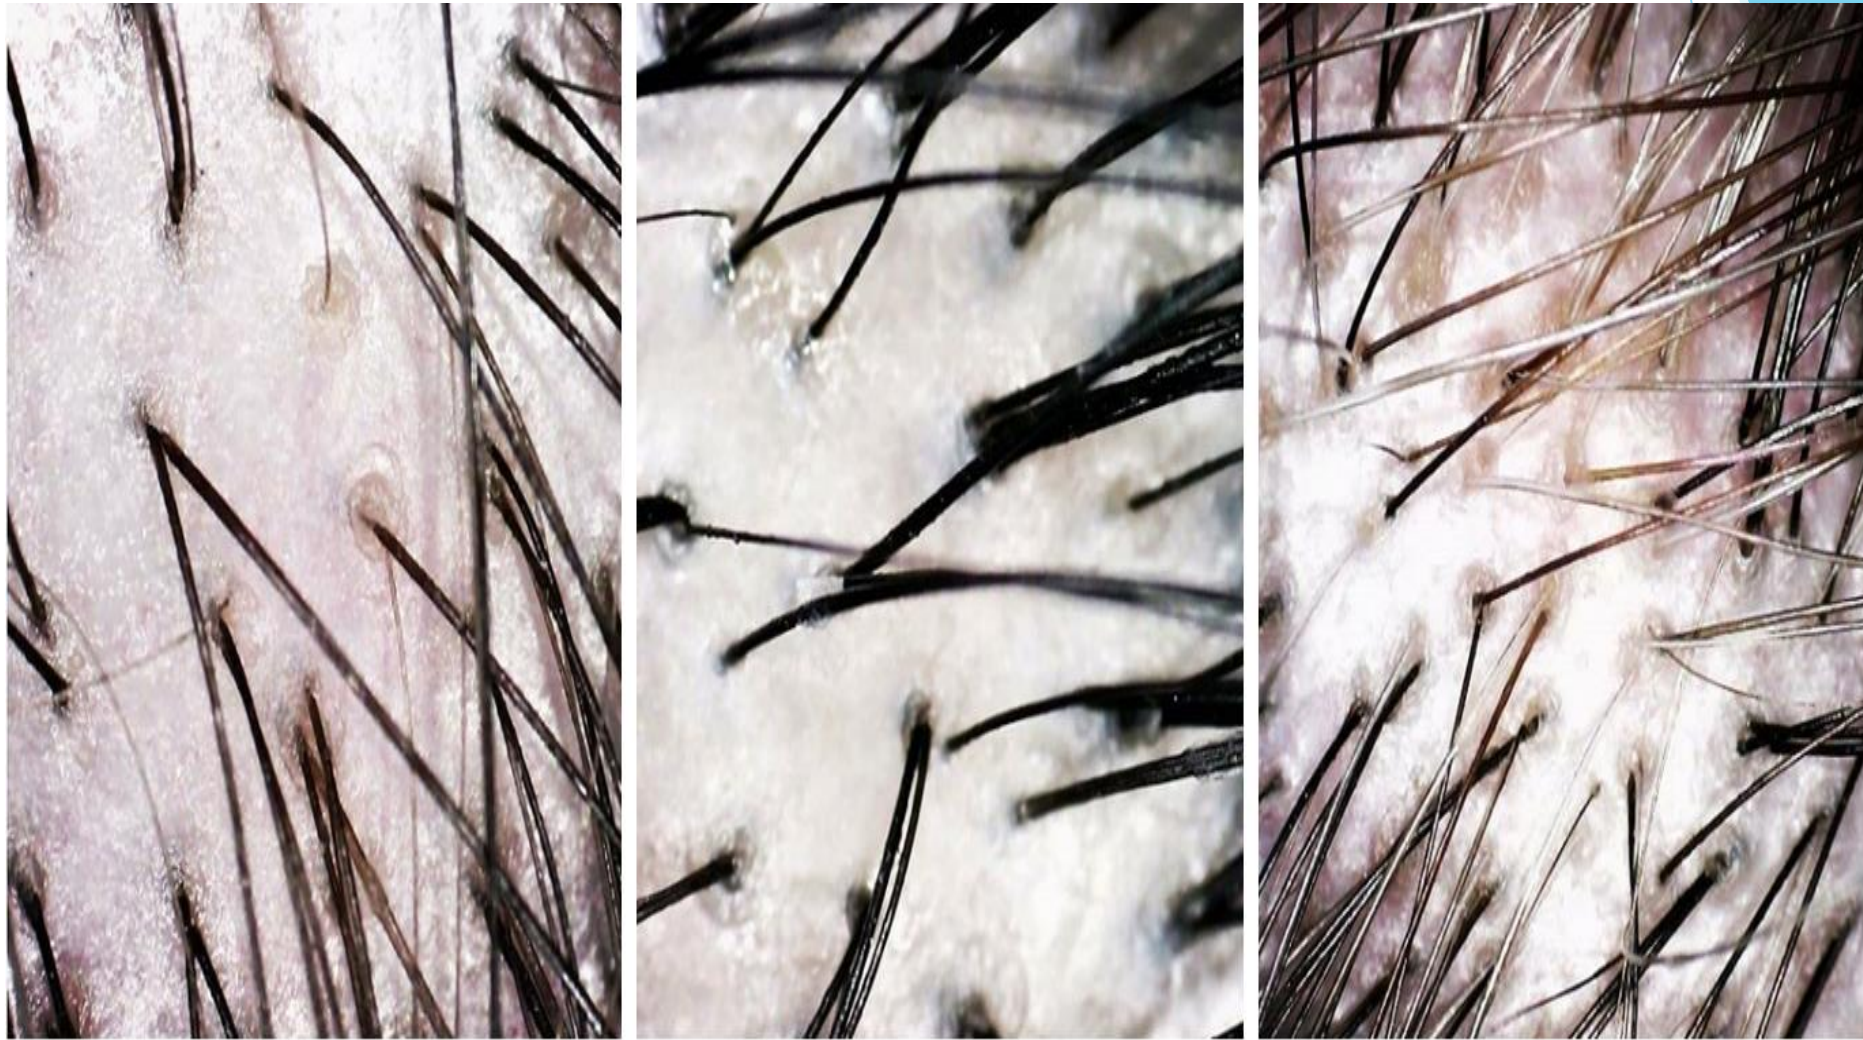

No rebound effect
